

KUVERA

ABOUT US

KuveraXchange is a financial and asset management firm established with dedicated attitude and commitment to helping investors around the world reach their desired investment goals and broaden their financial horizons.

With more than 1,000 * investment professionals worldwide, our investment capabilities are genuinely global - spanning a broad range of markets, asset classes and strategies. We seek to provide world-class investment expertise across a breadth of markets and asset classes. Our full range of solutions span equities, fixed income, crypto currency market, sovereign wealth funds, real estate and private market. Coupled with a wide range of investment approaches, we transform new investment ideas into practical investment products designed to deliver real value for money to investors.

We work with financial advisers and thousands of individual investors pursuing personal financial goals, from preparing for retirement to funding higher education. Investing our clients' assets is a tremendous responsibility, and for that reason there can be no shortcuts. We work relentlessly to help these investors reach their goals. We combine our deep knowledge of local markets with the power of coordinated global oversight to drive better investment outcomes for you.

OUR VISION

PERFORMANCE

At KuveraXchange, we believe that performance starts with preparation. We conduct exhaustive research and analysis to continuously evaluate the world's changing risks and opportunities from broad economic trends to individual securities. Our aim is to deliver forward-looking solutions that maximize the possibilities for our clients.

EXPERIENCE

There is no substitute for experience. Our distinctive top-down, bottom-up investment process has been tested in every market environment. That process is more than any one person - it is fundamental to our firm and will guide our efforts on behalf of our clients.

PARTNERSHIP

KuveraXchange believes there is nothing more important than the partnership with our clients. Markets

don't stand still and neither do we, innovating to build solutions to meet investors' evolving needs. We are invested in helping our clients achieve what they set out to accomplish.

OUR MISSION

HELP CLIENTS ACHIEVE INVESTMENT OBJECTIVES

We are well-positioned to help clients achieve their investment objectives . We are invested in helping our clients achieve what they set out to accomplish.

PURE FOCUS ON INVESTING

Our pure focus on investment management eliminates the distractions that compromise results. We believe the best investment insights come from specialized investment teams with discrete investment perspectives , operating under a disciplined philosophy and process with strong risk oversight.

DEPTH OF INVESTMENT CAPABILITIES

We offer a wide range of single-country , regional and global capabilities across major equity , fixed income and alternative asset classes , delivered through a diverse set of investment vehicles.

OUR SERVICES

FOREIGN EXCHANGE

LARGEST AND MOST LIQUID MARKET

Forex is the largest and most liquid market in the world with an average daily turnover of \$3.98 trillion.

MARKET WHERE CURRENCIES ARE TRADED INTERNATIONALLY.

We have extensive experience in Forex , stocks , options and CFDs markets as traders and dealers . We have gained our experience by working in managerial positions with the largest brokers . Even though we are not based on forex trading only but we are big enough to always meet our customers' demand on time , and creative enough to provide unique products and services in the industry . As traders we know by experience exactly what our clients deserve . Providing services and trading at the financial markets is all we do . Our knowledge and experience has provided us with the opportunity to create for you the fairest, most flexible and most stable environment for trading.

The foreign exchange market is considered to be the largest financial market in the world with recent data revealing that trading in the foreign exchange market averaged US \$5.3 trillion per day in April 2013.

The FX market is made up of many different counterparts -central banks , banks , investment firms, commercial companies , hedge funds and investors . The large, international banks are, however, the main participants of the market. The foreign exchange market may appear to be a daunting and confusing subject , however it doesn 't need to be. We've put together a team to try and help you better understand the FX market - the key currencies that exist, a full of industry terms, a section on some key terms, investment strategies and other information about the market.

CRYPTOCURRENCY MARKET

INVESTMENTS IN CRYPTO ASSETS AND TRADING

In the past few years we have built up enormous experience and expertise of global cryptocurrency asset markets and extensive operational infrastructure to operate in those markets.

We have also created extensive relationships with the key players in those markets and which are critical and a significant 'value add'. And we have constructed a complete operational, legal and regulatory framework for trading in cryptocurrency asset markets which we believe is unique.

Cryptocurrency trading is the forex of cryptocurrencies. This means, you are able to trade different bitcoin and altcoin normally for USD and BTC. The skyrocketing rise in cryptocurrency value is shaking up the financial markets. Crypto currency market was valued at \$500 billion U.S Dollars at the end of 2017. Its value rose over 360% from the

beginning of 2017. Cryptocurrencies are known for their rapid price movements, providing potentially high returns on investment.

EQUITIES

INVESTING IN STOCKS IS AN EXCELLENT WAY TO GROW WEALTH.

Our equity portfolio managers are given the freedom to develop their own individual approach to investing, which is then documented and monitored by our independent product management team. The goal is to ensure that our approaches are managed in line with a deeply considered, proven philosophy that sets out exactly how the manager intends to identify opportunities and control risks.

Our integrated global investment platform fosters collaboration and allows our investment professionals to share ideas across geographies on a daily basis.

We invest in hundreds of stocks from leading markets and stock exchanges around the world. Analyze, discuss and trade along with over ten thousand users. We trade with powerful and sophisticated software. Stocks are an equity investment that represents part ownership in a corporation and entitles you to part of that corporation's earnings and assets.

For long-term investors, stocks are a good investment even during periods of market volatility — a stock market downturn like the one we've seen this year simply means that many stocks are on sale.

COMMODITIES

GLOBAL COMMODITIES INVESTMENT

Commodities cover a broad range of real assets, including live cattle, wheat, corn, soybeans, copper, aluminum, nickel, gold, oil and coffee. We offer global access to the dynamic growth of both the developed and developing markets. Adding commodities to a portfolio invested in stocks and bonds can help manage risk and potentially improve returns.

We recognize the money we manage represents the hard work and savings of real people like you. Or, if you represent a non-profit organization, the money needs to be there in the long run to fulfill important missions. We understand what's at stake. That's why we work to deliver real, lasting value. And that's why we're committed to our purpose: Improving financial security for people.

Wealth Management

WEALTH MANAGEMENT

The starting point of our wealth management service is working with clients to understand their long-term financial goals. Only after this do we construct appropriate and tailored solutions designed to meet their expectations. However, while clients' needs may be unique, there are core features of our service which remain consistent:

 **Investment expertise.** As part of KuveraXchange, one of the largest active investment manager in the UK*, we offer capabilities normally only accessible to individual and institutional clients

 **Breadth of offering.** An extensive range of offerings is available including sustainable, responsible and ethical solutions where this is a client consideration

 **Exceptional client service.** We understand that clients need peace of mind that their assets are being managed diligently and effectively by a team of investment experts. To provide this reassurance, we strive to deliver high levels of client service with dedicated managers committed to continually keeping their clients informed. As part of KuveraXchange, our managers have access to unrivaled levels of expertise and insights from over 1,000 investment professionals located across the world. This not only helps deliver strong investment performance but also enables us to continually adapt client portfolios as needs change.

As every client's needs are different, we seek to establish their priorities and financial objectives. The factors we consider include:

- assets and liabilities
- attitude to risk
- return expectations
- cash-flow requirements
- investment horizon
- personal priorities

After discussing priorities and investment goals, we will propose an appropriate investment solution. As far as possible, we are able to accommodate particular requirements into the end solution. Over time, circumstances and financial goals will change. We proactively work with clients to anticipate change and adapt their portfolios.

WHY CHOOSE US

INSTANT FUNDING

All our funding options including deposits and payouts are processed with speed to not delay investor's activities and to enable fast closure of transaction.

TRANSPARENCY

No hidden charges, maintenance or withdrawal fee. Transparency is the only policy and we strive to achieve the best result with integrity, not just with our clients, but also our traders.

SECURED TRANSACTIONS

Security tops our list of interest, our very dynamic platform is protected & encrypted using government standard AES encryption. You can rest easy about the safety of your funds and personal information.
